

Prof. Seyed Amir Mohsen Ziaee

Profile summary

Prof. Seyed Amir Mohsen Ziaee is the President of the Iranian Red Crescent Society and a distinguished Professor of Shahid Beheshti University in Tehran . He has been a volunteer and humanitarian actor for most of his life. Voluntary service is a tradition in his family as his father, grandfather and grand grandfather have voluntarily served in the Iranian Red Crescent Society since its foundation in early 20th Century. (formerly the Iranian Red Lion and Sun Society until 1980).

Prof. Ziaee is an urologist by profession. He has authored numerous scientific papers and articles and has been actively engaged in the academic and public education and training forums at national and international levels. Before assuming the presidency of the Iranian Red Crescent Society in 2015, Prof. Ziaee served as the Deputy of Minister of Health, Treatment and Medical Education of Iran for Education and Research. He is specialized in education and research and has led several significant national initiatives and programmes on research, science and technology in Iran.

Prof. Ziaee was born on 12 June 1963 in Shahroud, Iran. He is married and is father of 4 children

❖ Academic background

➤ Postdoctoral training:

- **1991-1994:** Residency of Urology ,Labbafinejad medical center ,Shahid Beheshti University of Medical Sciences
- **1997-1998:** Fellowship of Endourology and Urolaproscopy , Labbafinejad medical center ,Tehran ,Iran
- **2003-**Mini fellowship in Endourology: JohnsHopkinsHospital,Baltimor, Maryland US.

➤ Educational & professional background:

- **1994-1995:** Assistant professor of Urology, Shahroud Faculty of Medical Sciences & Health Services
- **1995-1997:** Assistant professor of Urology, ShahedUniversity,Tehran
- **1998 - 2006:** Assistant professor of Urology , Shahid Beheshti University of Medical Sciences and health services/ Tehran
- **2006-2011:** **Associate professor of** Urology , Shahid Beheshti University of Medical Sciences and health services/ Tehran
- **2011 –present:** **Professor** of Urology, Shahid Beheshti University of Medical Sciences and health services/ Tehran

➤ Employment:

1998-2006: Director of education department ,Shahid Labbafinejad Medical center

2006-2008: General manager of Evaluation and development of medial eduaction office,Ministry of Health

2008-2011: Secretary of Medical education,ministry of Health and medical education

2012-2014: Deputy Minister for education,ministry of Health and medical Education

2014- present: President of Iranian Red Crecent Society

➤ Related professional Activities and affiliation:

1995-1997: Member of research committee , ShahedUniversity

1998-2003: member of teacher training center(T.T.C) Medical Sciences(Affiliated with W.H.O)

1984-present: member of Iranian Urological Association

1999-present: member of Iranian fertility & infertility Association

1999-present: member of research committee of iranian fertility &infertility Association

2000-present: member of research committee of the Urology&Nephrology research center(UNRC) ,Shahid Baheshti University of Medical Sciences

1999 -present: editorial board and peer reviewer of Urology journal

2001-present: Member of the Societe Internationale de Urologie(SIU)

2001- present: member of World Endourological society

2001-present: member of American Urological association(AUA)
2004-present: Corresponding member of European Urological Association(EUA)
2006-present: Member of Iranian Board of Urology
2014-present: President of Iranian Endourology and Urolaparoscopy Society

➤ **Publication indexed in Pubmed:**

Association between polymorphisms in TP53 and MDM2 genes and susceptibility to prostate cancer.

Hashemi M, Amininia S, Ebrahimi M, Simforoosh N, Basiri A, **Ziaee SAM**, Narouie B, Sotoudeh M, Mollakouchehian MJ, Rezghi Maleki E, Hanafi-Bojd H, Rezaei M, Bahari G, Taheri M, Ghavami S. *Oncol Lett.* 2017 Apr;13(4):2483-2489. doi: 10.3892/ol.2017.5739. Epub 2017 Feb 14.

Association between LPTM4B gene polymorphism and prostate cancer susceptibility in an Iranian population.

Hashemi M, Rezaei M, Narouie B, Simforoosh N, Basiri A, **Ziaee SA**, Bahari G, Taheri M. *Mol Cell Oncol.* 2016 Apr 15;3(6):e1169342. doi: 10.1080/23723556.2016.1169342. eCollection 2016.

Efficacy and safety of percutaneous nephrolithotomy with adult standard size instruments in chilProfen under 3 years of age: a 10 years single-center experience.

Nouralizadeh A1, Basiri A1, **Ziaee SA1**, Tabibi A1, Sharifiaghdas F1, Narouie B1,2, Sarhangnejad R1, Valipour R1,3, Sotoudeh M1, Shemshaki H1, Ketabi N1, Movahed S1,2.

Urologia. 2016 Nov 18;83(4):190-193. doi: 10.5301/uro.5000198. Epub 2016 Oct 1

ERBB4 gene polymorphisms and the risk of prostate cancer in a sample of Iranian Population.

Hashemi M, Moradi N, Rezaei M, Sanaei S, **Ziaee SA**, Narouie B, Sotoudeh M, Bahari G, Ghavami S. *Cell Mol Biol (Noisy-le-grand).* 2016 Aug 31;62(10):43-8.

Association of XPC Gene Polymorphisms with Prostate Cancer Risk.
